SECTION E
CASE BASED QUESTIONS (4X2=8)

25. Read the source given below and answer the following questions: 4

The Harappans gave much importance to water management and cleanliness. They often had separate areas for bathing in their homes; these were connected to a larger network of drains, which generally ran below the streets and took the waste water away. In Mohenjo-daro, people drew water from hundreds of wells made of bricks. At Dholavira, at least six large reservoirs were built with stones or even cut into the rock. Most of them were connected through underground drains for efficient water harvesting and distribution.

a) What two things did the Harappans give much importance to? 1
b) Where were the drains located that carried the waste water away from houses? 1
c) Where did the people of Mohenjo-daro draw their water from? 2

26. Read the source given below and answer the following questions: 4

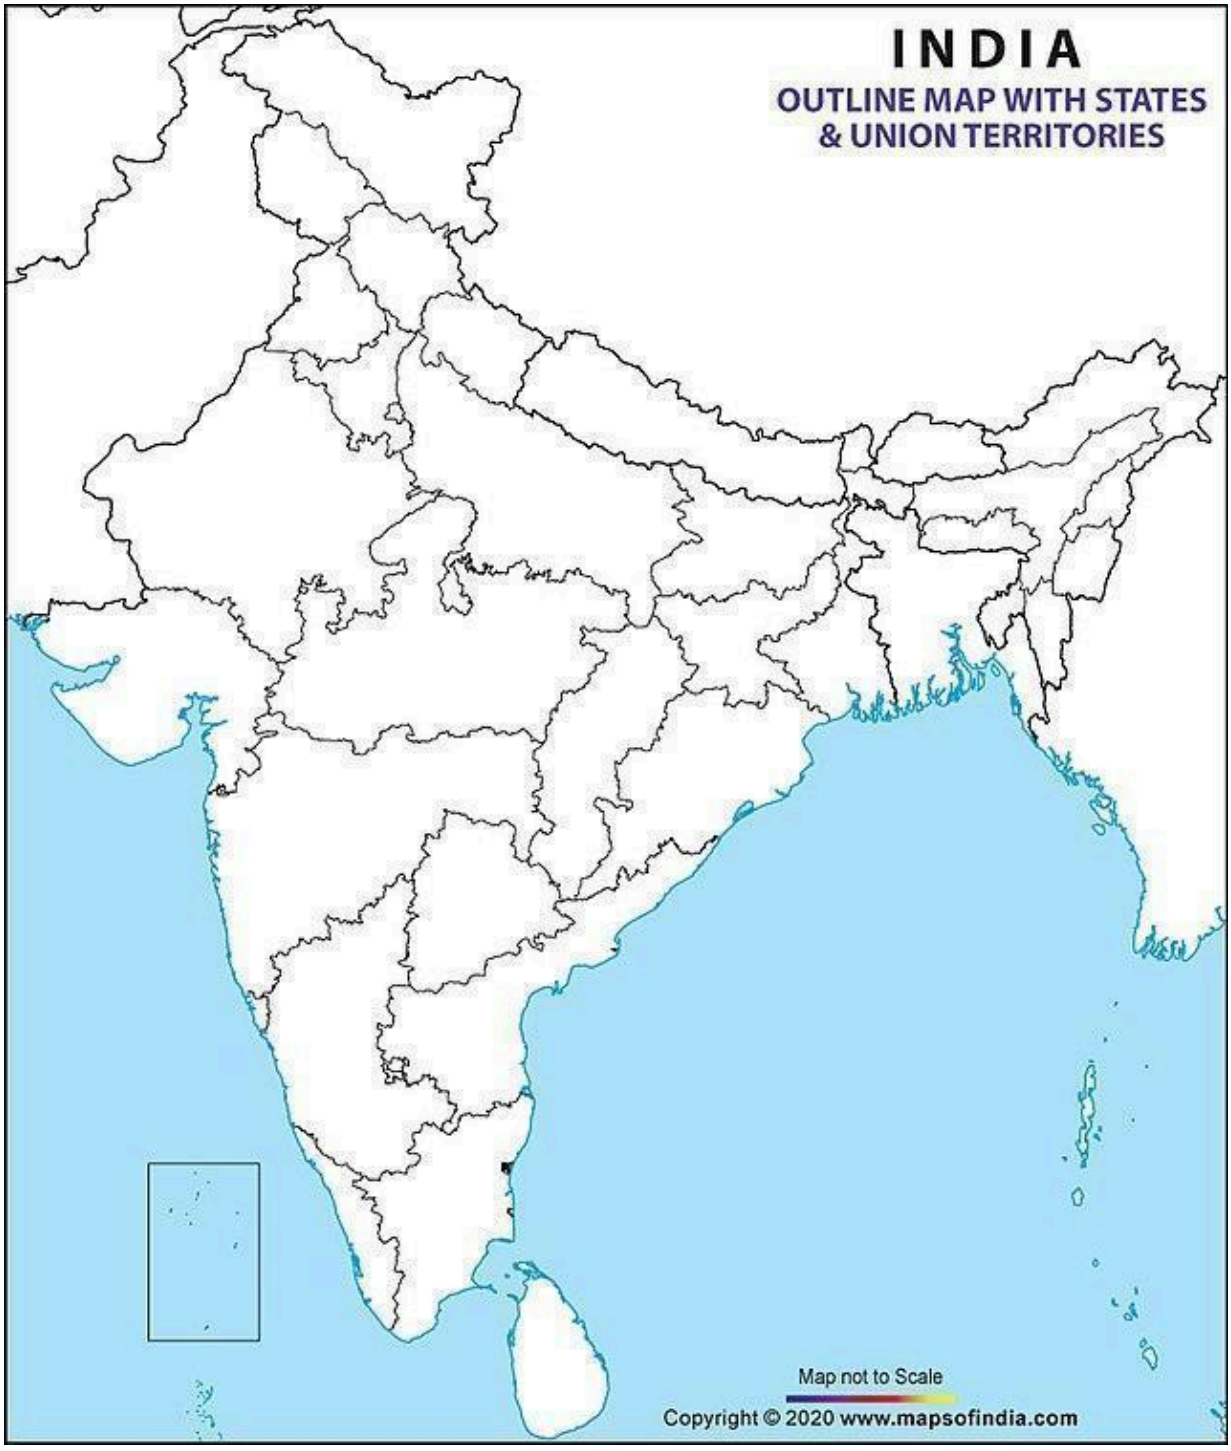

Hiware Bazar, a village in Ahmednagar district of Maharashtra, used to be affected by frequent droughts and poor agricultural yield. After Popatrao Baguji Pawar became its Sarpanch, he started applying Anna Hazare's model of rainwater harvesting, watershed conservation and massive tree planting of lakhs of trees, all of which contributed to the recharge of groundwater. With the collaboration of the villagers, Hiware Bazar became a green and prosperous village in a few years. Shri Popatrao Pawar was awarded the Padma Shri in 2020.

a) Which village in Maharashtra suffered from frequent droughts and poor agricultural yield? 1
1
b) Who became the Sarpanch of this village and led its transformation? 2
c) What three main measures were implemented to recharge the village's groundwater?
